

NUGGET

A woman with blonde hair styled in a voluminous, slightly messy updo is the central figure. She is wearing a white, strapless, off-the-shoulder dress with a subtle pattern. She is leaning forward, with her hands clasped together near her chin, looking back over her shoulder at the camera with a slight smile. The background is a soft, out-of-focus light green and yellow.

bought her to San Francisco. Big
Brother and the Holding Company, with
Janis Joplin out front, took off. Janis,
who had been singing what she calls "a
Bowie Smith-type thing," found that
when you have a rock 'n' roll group
behind you, you've got to use full lung
power to be heard. So she did. She also
uses everything else she's got to get
across her message—love, passion, sed-
ition, sex.

The little blues singer from Texas
and the hip guys from San Francisco are
the most exciting rock group to come
along since the first one—The Beatles.

Their first official LP album—the Big
Brothers have a couple of other albums
that don't show them to best advantage
—is called Cheap Thrills. Buy it,
because mere words won't show Janis
and the group to best advantage either.

The Bee Gees, the three brothers
Gibb, Barry, Robin and Maurice, Colin
Peterson and Vince Melouney, have a
new LP out, *Idea* (Atco SD33-253). It's
terrific. When asked to name my favorite
hands on the record I couldn't—
they're all fine.

"Let There Be Love" is done in the
slightly country-sassal tenor sound that
the group has made their own and is a
delightful rock ballad. Other songs on
the album are "Swan Song," "Idea,"
and the moving "In The Summer Of His
Years."

It's interesting to note that the Bee
Gees are the best selling group in the
world today—they've got twenty-eight
top sellers in twenty-three countries.
And from the evidence offered by *Idea*
they entirely deserve their position.
